Judge Upholds Arizona's 'Show Your Papers' Immigration Law

(Reuters) A federal judge has upheld part of Arizona's contentious immigration law, rejecting claims that the so-called "show your papers" section of the law discriminated against Hispanics. The ruling by U.S. District Judge Susan Bolton on Friday was on the last of seven challenges to the 2010 law. The section being upheld allows police in Arizona to check the immigration status of anyone they stop. Bolton ruled that immigration rights activists failed to show that police would enforce the law differently for Hispanics than other people. The section is sometimes called the "show your papers" provision. The judge also upheld a section that let police check to see if a detainee is in the United States illegally. Bolton voided any laws targeting day laborers. Karen Tumlin, the legal director of the National Immigration Law Center, one of the parties to the suit, said the group was evaluating its options. "We will continue working on behalf of our courageous plaintiffs to show that Arizona can do better than this disgraceful law," she said in a statement. Bolton's ruling came two days after a federal judge approved a deal between the U.S. Department of Justice and Arizona's Maricopa County to resolve accusations of civil rights abuses and dismissed the department's lawsuit against Sheriff Joe Arpaio and his deputies.

International News – Significant Events**US Concern Over Russia 'Military Buildup' in Syria**

(AFP) The United States expressed concern to Moscow on Saturday about what it called reports of an imminent and enhanced Russian military buildup in war-torn Syria. Washington made its views known in a telephone call from Secretary of State John Kerry to his Russian counterpart Sergei Lavrov, the State Department said. "The secretary made clear that if such reports were accurate, these actions could further escalate the conflict, lead to greater loss of innocent life, increase refugee flows and risk confrontation with the anti-ISIL coalition operating in Syria," the State Department said. In his call with Lavrov, Kerry discussed "US concerns about reports suggesting an imminent enhanced Russian buildup there," the department said. "The two agreed that discussions on the Syrian conflict would continue in New York later this month," it said. The New York Times reported that Russia has sent a military advance team to ally Syria and was taking other steps that Washington fears may signal plans to vastly expand its military support for President Bashar al-Assad. Syrians walk amid the rubble of destroyed buildings following reported air strikes by regime forces. The Times said the moves included the recent transport of prefabricated housing units for hundreds of people to a Syrian airfield and the delivery of a portable air traffic control station there. Russia's President Vladimir Putin was asked Friday whether Russia was taking part in military operations against the Islamic State group in Syria. "We are looking at various options but so far what you are talking about is not on the agenda," he said. "To say we're ready to do this today -- so far it's premature to talk about this. But we are already giving Syria quite serious help with equipment and training soldiers, with our weapons," RIA Novosti state news agency quoted Putin as saying. Russia's Foreign Ministry said Saturday's telephone call was made at Kerry's initiative. It made no mention of US concerns about a possible Russian military buildup, but said the two men discussed "different aspects of the situation in Syria and its environs, as well as the objectives of the fight against IS and other terrorist groups." The foreign ministry said they spoke of "cooperation" between Moscow and Washington to "support UN efforts aimed at launching a political process in Syria." Lavrov and Kerry agreed to remain in close contact in pursuing a settlement of the Syrian conflict, which has claimed more than 240,000 lives since March 2011 and driven millions more from their homes.

SITUATION SUMMARY

Train Derailment, Colton, San Bernardino County – Hazardous Material Spill Report # 15-5228

On 09/06/15 at 0139 hours, Union Pacific Railroad (UPRR) advised that three railcars derailed upright at the Colton Rail Yard in Colton, San Bernardino County, due to unknown causes. The cars were not part of a train. Two of the three cars had non-hazardous material freight but the type is unknown. There were no injuries, no hazardous material release, and no mainline closure associated with this incident. Notifications were made per CSWC SOP.

Labor Day Weekend BART Transbay Tube Closure

BART has shut down train service between Oakland and San Francisco over the Labor Day weekend, September 5-7, so workers can rebuild a section of track near the Transbay Tube. Train service stopped at the end of service Friday, September 4, and will remain closed until the start of service on Tuesday morning. BART also wants to remind people since Monday is a holiday, BART will operate on a Sunday schedule that day.

- Nearly 100 buses will continuously shuttle passengers between 19th Street BART Station in Oakland and San Francisco's Temporary Transbay Terminal.
- The West Oakland BART Station will be closed during the shutdown. If West Oakland is your home station, there will be a shuttle available to take you to 19th Street/Oakland station.
- Additional information regarding the modified BART schedule can be accessed here:

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- A Freeze Warning is in effect for portions of Modoc and Siskiyou Counties 0800 hours this morning due to sub-freezing temperatures in the mid 20s to lower 30s.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

A gradual warming trend is expected across northwest California for the week ahead. This is a result of a ridge of high pressure over the eastern Pacific nosing into the west coast. Dry conditions will persist with mostly sunny skies.

Medford Weather:

The forecast area will remain dry through the week, with upper level ridging overhead and a thermal trough just to our south. After a morning of frost and freeze east of the cascades today, temperatures will gradually warm through the week, and although highs today will be 5 to 10 degrees below normal for this time of year, highs will reach up to 15 degrees above normal by this weekend, and triple digits will not be out of the question for some of the usually warmer locations within the forecast area.

Reno Weather:

After a cold start, high pressure rebuilding over the west will bring a warm up with very warm and dry conditions for the upcoming week.

San Francisco Weather:

A region-wide warming trend is forecast to continue through Labor day as high pressure builds over the state and light offshore flow persists. Warm and dry weather conditions are then expected to continue through next week and into next weekend.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Dry with temperatures warming well above normal this week. Locally gusty northerly wind continues late nights and mornings for the next few days in the northern Sacramento Valley and surrounding foothills.

Hanford Weather:

Mostly clear skies and increasing temperatures are expected for the next several days as high pressure moves in over the region.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A warming trend is expected through next week as upper-level high pressure over Texas expands west and weak offshore flow develops. Temperatures will be above normal through the period, with well above normal temperatures likely later in the week.

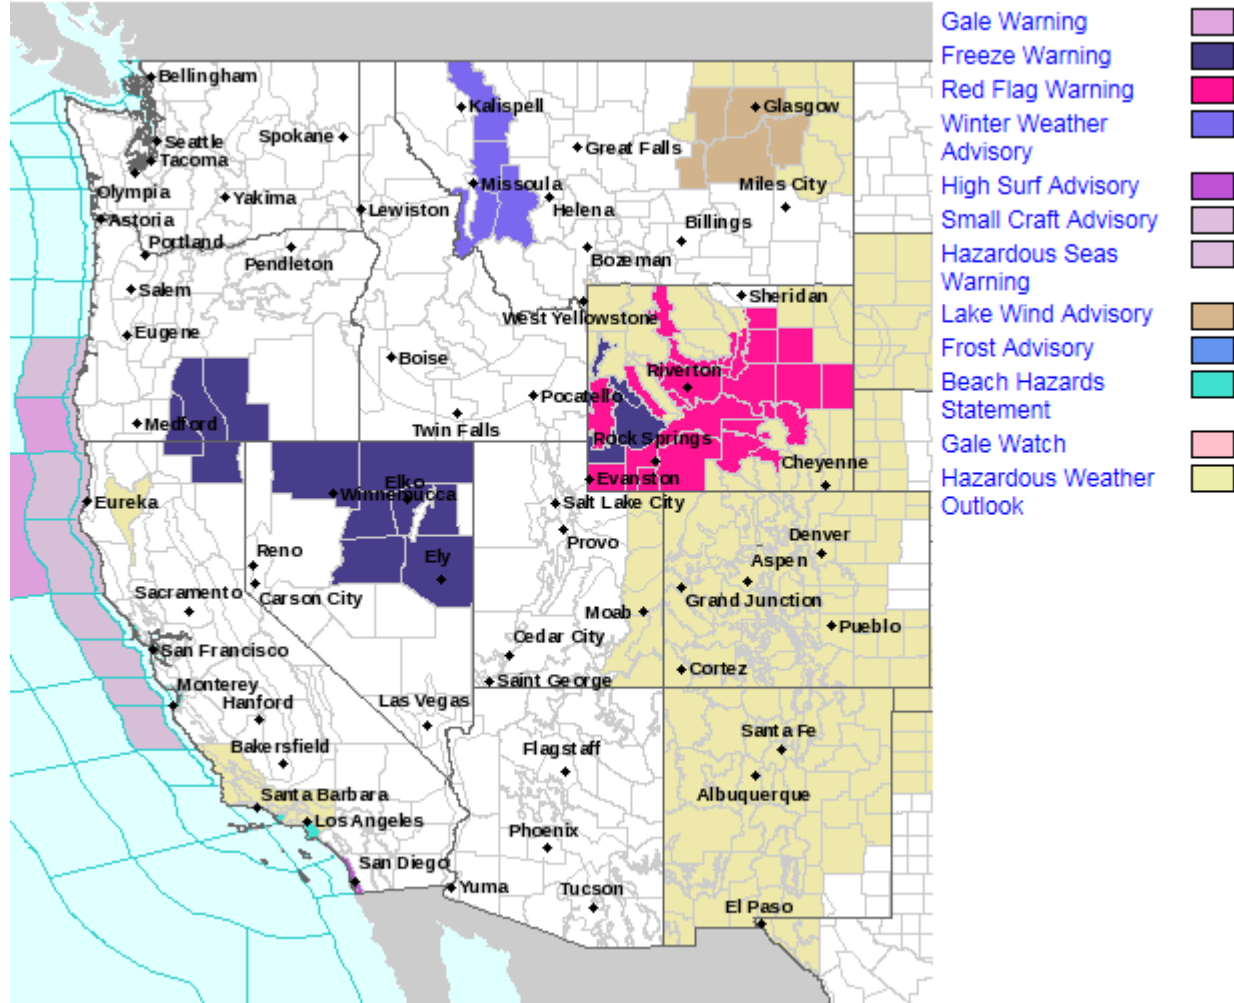

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Warmer weather returns through the middle of next week as high pressure builds back into the area from the east and replaces the trough. This will also result in a shallower marine layer with less extensive low clouds. Temperatures will be above average for much of next week with no precipitation expected.

Southeast California Weather:

An influx of tropical moisture will result in the possibility of showers and thunderstorms from areas near the Colorado River Valley and to the east through Tuesday evening. Otherwise expect dry conditions across the area. Temperatures will steadily warm through Thursday then remain above normal through the end of the week.
